Amendments to the Claims:

ġ,

The following listing of claims will replace all prior versions, and listings, of claims in the application:

- (Currently Amended) An electromagnetic wave absorber formed of an Mn-Zn 1. ferrite comprising: a spinel primary phase which contains 40.0 to 49.9 mol % FeO and Fe₂O₃, 4.0 to 26.5 mol % ZnO, 0.1 to 4.0 mol % at least one of TiO2 and SnO2, and a remainder of MnO and Mn₂O₃, wherein Mn₂O₃ is present in an amount of 0.5 mol % or less and FeO is present in an amount of 0.2 mol % or less; and a secondary phase which contains CaO as a base component, wherein a mass of the spinel primary phase accounts for 50.0 to 99.0 % of an aggregate mass of the spinel primary phase and the secondary phase.
 - (Canceled) 2.
 - (Canceled) 3.
